This email is from an external source. Use caution responding to it, opening attachments or clicking links.

To the City Clerk, Councilor Neufeld, and to the office of Mayor Ballantine,

I'm writing in response to a letter from the city about the proposed Used Car Dealership at 166 Boston Ave.

I'm feeling a lot of frustration with this letter and with the lack of responsiveness so far-- I'm reusing this email chain so that you can all see that this is our third time reaching out with no response. We also received this letter AFTER the Public Hearing date had already passed-- taken together, this makes us feel like we're not being heard *on purpose* by our representatives. If that's the case, I'd welcome the opportunity to vote someone else into office who will listen to constituents.

I'd like to reaffirm our opposition to this project, and I'll quote from my original email on the subject, lightly edited, from 6/15/23:

To whom it may concern at Somerville public comments department, as well as the office of our ward councilor, Judy Pineda Neufeld,

We live at the corner of Mystic Valley Parkway and Boston Ave. We received an incredibly concerning mailing about a used car dealership opening on the corner where the gas station used to be-- it included an invitation to a comment session but we only received the mailing a couple days before-- not nearly enough time to free up time to attend.

We could not oppose this more strongly! We are also totally disturbed by and opposed to the large tank proposed there which will store flammables (!?)

This is a neighborhood. It's bad enough that we live on one of the most dangerous intersections in the city, which is nonetheless incredibly well foot-trafficked, and that we have to cross to it with our 16 22 month old son multiple times a day; and worry that someday he'll be hurt there, or on 16 itself which is a residential road disguised as a highway (or vice versa)---

But a used car dealer/lot is absolutely a move in the wrong direction-- it will make the intersection more dangerous, and it's *also* such a missed opportunity to have something actually community and neighborhood oriented move onto the corner. And a tank full of flammables???

Thank you!
Mike Epstein, Beth Pisarik (and our baby, Will)
