

02-19-21

Dr. Vanessa Boukili,

Thank you for the opportunity to apply for the Youth Member opening for the Urban Forestry Committee.

As my mother told you I am a class of 2023 student of Essex North Shore Agricultural and Technical School. I initially enrolled at Essex Tech for the Equine Science program since I own three horses, I love them dearly and thought my future held a position in the equine field in some manner. I was introduced to the Arboriculture field during Freshman Exploratory and realized that I love trees! My passion is horses but my job outlook became tree-inspired.

I have learned a lot as a member of the Arboriculture shop and continue to seek knowledge outside of the school format. Having lived in Somerville my whole life, I have always been surprised at the bird population... I guess this is helped by the tree population, which I hope continues to grow!

I would be so grateful if given the opportunity to join this committee for both benefiting myself and the City of Somerville.

Sincerely,

Murphy Langevin
