**EXPERIENCE**

**Partners HealthCare**  
*Integration Analyst*

Somerville, MA  
March 2016 – Present

- Drive activities related to designing, developing, supporting, testing and delivering a solution for integration of the entity, enterprise, Epic, and third-party vendor applications.
- Perform thorough system analysis to understand and assess current connections among/between all impacted applications and enterprise systems.
- Host weekly multi-team meetings with vendors to track progress of current projects and ongoing issues.
- Work with development and entity contacts to deploy and validate that interfaces are working properly.
- Partake in internal workgroups focused on the optimization of active and future system capabilities.
- Collaborate with doctors to ensure their customized system features function as designed.
- Serve on the advisory council and inquire/research the potential impacts of any system-wide change.

---

**American Capital Energy**  
*Construction Manager*

Lowell, MA  
March 2014 – February 2016

- Supervised the construction of seven photovoltaic arrays on the largest solar landfill project in the United States, which employed 150 workers.
- Put together closeout packages that included financial reports, change orders, manuals, product warranties, as-built drawings, subcontractor lists, and permits.
- Coordinated deliveries, facilitated scheduling, and accelerated the push to milestone payment dates.
- Acted as the liaison between the EPC contractor and financiers, subcontractors, project managers, inspectors, foremen, town representatives, and the utility company.
- Verified daily progress matched or exceeded the project schedule timeline.
- Attended town hall meetings to address concerns of neighborhood residents.

---

**F.W. Russell Disposal**  
*Operations Supervisor*

Somerville, MA  
May 2008 – August 2013

- Supervised employees in the field and ensured work was properly completed during summer months.
- Analyzed problems with town residents on behalf of the company and provided amenable solutions.
- Saw that all Federal, State and local environmental guidelines were closely followed.
- Coordinated with the Department of Transportation when accidents occurred.

---

**Cox Communications**  
*Freelance Producer/Production Assistant*

Lincoln, RI  
July 2010 – July 2013

- Operated on-screen scoreboard for Pawtucket Red Sox and collegiate athletic broadcasts.
- Directed floor scenes on the Emmy nominated television cooking show *Nick Rabar: Chef 2 Go*.
- Conducted interviews, filmed, and edited video segments for the Providence College Basketball Team.
