Provide information here

Based on the overall risk assessment described above, what is the City's current recommendation for school opening? This section should provide a scale of opening (from buildings fully closed to PK-12 fully in person) developed and/or approved by the City - and state, based on the risk assessment results in B18, what the City recommends.

Based on the overall risk assessment described above, what is the City's current recommendation for business opening? This section should provide a scale of opening (from all non-essential in-person businesses fully closed to business operations as usual) developed and/or approved by the City. This scale should also include different types of businesses (retail, in-person dining, gyms, etc.). This section should, based on the risk assessment in B18, state what the City recommends for business opening.
