Describe: We are about to be in the process of renovating our facade. The entry way will be centered on the space, with garage doors on either side. Above the entry way, we are proposing a metal channel sign that is lit and measures approx 68" w x 22" tall. It would extend off of the building 6". Please note that the sign drawing provided by SRP Signs mocks up the sign on our current facade. In the architectural drawing done by Davis Square Architects, you can see a mock up of the proposed sign on the new facade (Page 2)
