Subject: Sidewalks and weeds

Hello. I live on Cherry Street and have been a while now not liking how our sidewalks are looking in the city particularly on summer street but I've noticed other streets too. Around the planted trees it's a weed field I know some pollinators plants have been planted throughout the city but they have not been kept clear of weeds it's getting overgrown. Also between the sidewalks and the curbs in the crack there are weeds this just makes the city look unkept. Can someone please tell me why these have been let go it's not very attractive for such a great city. I'm looking forward to a response as to why.
Thank you for your time.

Ruth Kearns.
