**RE: Grant of Location
MBTA
Green Line Extension
Inner Belt Road**

Dear Board Members:

Preliminary approval is recommended for the petition and plan of the Massachusetts Bay Transportation Authority to:

For sanitary sewer: Construct fifty (50') linear feet of new (3") HDPE (high density polyethylene) sanitary sewer force main line from two (2) proposed GLX trailers to an existing sanitary sewer manhole within Inner belt Road Somerville, MA.

For water: Construct thirty (30') linear feet of (1.5") copper water service from two (2) proposed GLX trailers to an existing (12") water line within Inner Belt Road Somerville, MA.

This recommendation is made with reference to MBTA's letter of November 7, 2014 and plan of July 30, 2014 upon stipulation that the Grant of Location is subject to: a reservation of rescission by the Board of Aldermen; indemnification of the City for all liability arising from said Grant; all permit procedures, conditions and approvals of municipal utilities; protection of existing infrastructure; and complete surface repair, restoration and maintenance. A public hearing will be required.

This work is necessary for the Vehicle Maintenance & Storage Facility Interim Transportation Building Utility Service Plan 4 – Inner Belt Road Somerville, MA.

Respectfully requested,
Department of Public Works

RE: Petition for Grant of Location

Dear Mr. Long,

The Green Line Extension (GLX) project is an initiative of the Massachusetts Department of Transportation (MassDOT) and the Massachusetts Bay Transportation Authority (MBTA) to extend Green Line service from a relocated Lechmere Station in Cambridge to Union Square in Somerville and to College Avenue in Medford. As part of the public transit improvements, several water, storm drain and sanitary sewer utilities will be relocated and/or new services provided to new train stations in Somerville, MA. Attached to this letter are narratives, a spreadsheet, and 11x17 plans that depict and describe instances where a municipal utility (water, drain, and sewer) is proposed to be constructed and or relocated in a permanent condition within the City of Somerville's Public Right of Way as part of IGMP#2, IGMP#3, and IGMP#4 packages of the GLX project.

As a result, MBTA is petitioning the City of Somerville for Grant of Locations at the following locations.

- Washington Street below and immediately to the east the existing RR Bridge
- The north end of Horace Street
- Within Bennett Street and the south side of the Prospect Street Bridge
- Inner Belt Road between 70 and 200 Inner Belt Road

There will be several other utility relocations and new services proposed as part of the project in either subsequent IGMP packages or by third party utility companies for electric, fiber, gas, and telecommunication utilities, however, the Grant of Location petitions for those relocations and services will be performed at a later date and or by the third party utility companies.

If you have any questions or comments please contact me at 617-996-0771 ext. 251.

Thank you for the consideration.

Sincerely,

Joseph J. Maliawco, P.E.
