CITY CLERK'S OFFICE
SOMERVILLE, MA

Dear City Council,

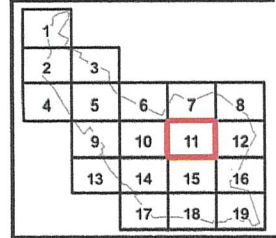

The following signatures represent a group of residents who would like to propose an amendment to the Zoning Map for the above listed properties.

This group originally asked our City Councilors to keep the above mentioned parcels at MR 4 with the expectation that a community benefits clause would be written into the new zoning shortly after passing. This clause was expected to allow these parcels to add additional floors if positive impacts and community benefit was built into the project design through a collaborative community process. Many of these parcels have ongoing projects that have worked incredibly hard with community members and city planning to develop projects that will have significant community benefit, and that the community has formally stood behind in community meetings and at ZBA meetings. Unfortunately, the ZBA is not equipped to provide these variances without the community benefits clause.

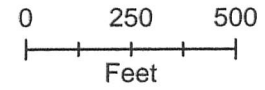

Since the community benefits clause has not materialized, and our understanding is that it will not be proposed now or in the near future, it is in our community's best interest to change the zoning map to reflect the massing and height that we originally intended and desire. We please ask you to change these parcels from an MR4 designation to an MR6 designation to better reflect the goals and vision of our community.

Thank you,
Residents of Gilman Square
