EVAC+CHAIR POWER 900

4 SPEED ELECTRIC/BATTERY POWERED STAIR CLIMBER WITH AN INCREASED WEIGHT CAPACITY OF UP TO 560LBS

Can be used in emergency evacuations, power outages, and daily patient transport to safely and easily move a passenger up and down a flight of stairs.

EVAC+CHAIR POWER 900

Product Overview

If you're looking for a motorized stair climbing chair that you can count on, look no further than the Evac+Chair Power 900.

The launch of the EVAC+CHAIR® Power 900 Model, takes the already leading Power 800 specification, but further offers the increased weight capacity of up to 560 lbs / 254 KG's, enabling users to move persons of bariatric or increased weight, therefore reducing manual handling of the operator.

Innovative features of the EVAC+CHAIR® Power 900 not available in other powered alternatives include:

- Designed in the United States
- Superior quality
- Increased weight capacity of up to 560 lbs / 254 KG's
- Lifetime manufacturer warranty
- Orthopaedic head support
- 4 point harness
- 4 speed control panel settings
- Automatic EVAC+TRACK® release system
- Non sparking electrical system eliminating risk of fire
- Higher capacity power and battery system with burnout protection

FEATURES

1. Height adjustable patient head cushion

Headrest with padded cushion for maximum comfort for the passenger during transit

2. Easy to use control panel

4 Speed settings panel for easier control when ascending and descending

3. Ergonomic adjustable handle

For ease of deployment and compact storage

4. Additional operator handles

For added stability when using additional operators during transportation

5. Extra long quick release four point harness

For increased passenger safety

6. Rechargeable lithium Ion battery pack

Fully charged in 1.5 hours (Equivalent to going up and down a 5 Story building flight of stairs 30 times)

7. High strength aluminium frame

Increased strength and robustness for continued use

8. Adjustable stair track

Tension control system for perfect transportation with tool included

9. Lockable rear wheels

Can be applied in situations where the chair needs to remain in a stationary position

10. Manual override switch

Reverts the chair to manual function chair for when power is not available
