Subject: FW: Somerville Seeking Residents to Serve on City's Urban Forestry Committee
Attachments: Alden Johnson RESUME word.docx

Hi Vanessa,

Happy fall season! I hope this finds you well. I'm writing to express my interest in volunteering on the new Urban Forestry Committee you are forming.

A Somerville client of mine, Melissa McWhinney, brought this opportunity to my attention with great enthusiasm and encouraged me to apply. I would be thrilled to be considered to serve on the committee if you have a position available.

I did move out of Somerville to Medford 5 years ago, so I am no longer a resident. I believe my 4 years as a resident and the amount of time I spend in the city in a professional capacity may give my perspective some value.

Thank you for your consideration. If the committee is already full no worries. I am always looking for opportunities to help Somerville's trees and get BTSE in involved in the community with arbor day volunteer work, education, awareness etc... Let me know if we can help!

Attached please find my resume

Humbly,

Alden
