Re: Mayor's Commission on Energy Use and Climate Change

Dear Oliver,

I am writing express my interest in serving on the Mayor's Commission on Energy Use and Climate Change (CEUCC). As you know, I previously volunteered on the Somerville Climate Forward Buildings Working Group, an experience which I very much enjoyed. I would like to continue my community service as a member of the CEUCC.

As a building scientist with over ten years of experience, my diverse background in building energy performance, sustainable design consulting, and engineering will make me an asset to the CEUCC. Beyond my expertise in energy efficient buildings, I offer strong communication and interpersonal skills. Above all, I bring a personal passion for sustainability and climate action to my work.

The climate crisis is the defining issue of our time and demands urgent action. Serving on the CEUCC would allow me to take tangible action in combatting this global issue within my community. It would be my great honor to lend my time and expertise to the CEUCC in support of Somerville's carbon neutral goal.

Sincerely,

Elizabeth M. Galloway, PE, CEM, CPHD, LEED AP BD+C, WELL AP
