

Efecan Yigitpasa

Army National Guard | Tactical Power Generation Specialist

SUMMARY

Highly disciplined and mission-driven Army National Guard service member with specialized training in power generation systems, tactical operations, and security procedures. Proven ability to perform under pressure, lead teams, and apply technical knowledge in field operations. Actively pursuing a career in law enforcement as a State Trooper.

EXPERIENCE

Additional Military Duties

2024 - Present

US Army National Guard

- Trained in weapons handling
- Conducted security patrols
- Participated in physical fitness training and passed the Army Combat Fitness Test (ACFT).
- Gained hands-on experience in leadership, discipline, and teamwork in high-pressure environments.
- I developed an understanding of both my personal responsibilities and those of my team in the army.

Tactical Power Generation Specialist

- Responsible for maintaining, troubleshooting, and repairing diesel and gas-powered generators. Performed regular inspections, diagnosed mechanical and electrical issues, replaced faulty components, and ensured reliable power support during missions and field operations.

Uber Driver

2023 - 2024

- Provided safe and efficient transportation to customers across the Greater Boston area.
