Mayor of Somerville  
Somerville Board of Aldermen

First and foremost, Happy Thanksgiving!

Writing in regards to needed improvements to help make our great City better.

- 1) The computers at the Central Branch Library need to be placed within individual cubicals, as opposed to being placed on tables, ect.
- 2) Blue "Crime Watch" signs need to be posted more throughout the City, not just Davis Square (one would look mighty fine at the corner of Autumn & Lower Broadway).
- 3) The rodents & rats need to be liquidated for good and all.
- 4) Recruit, train and hire more local law enforcement officials.
- 5) The Administration needs to be willing to comply & work in full, absolute conjunction with Immigration and Customs Enforcement.

- 6) The Students from the Prospect Hill Academy Charter School on Franklin Street should have an after-school library of their own, in order to reduce noise level and free space at the East Branch Library. Therefore, adults can complete their works & readings in a quiet environment.
- 7) When graffiti's painted over, the whole wall should be painted, and not just the graffiti, itself.
- 8) More trees need to be planted throughout the City for a far more pleasant environment.
- 9) The old Star Market in Winter Hill should be torn-down and replaced with apartments and/or condos.
- 10) A 24-hour store is needed desperately on Lower Broadway.

Thank you very much for reading.

Best regards I am, very truly yours,
