4.5. Resolution
(ID # [24-0667](#))

By Councilor Ewen-Campen, Councilor Clingan, Councilor Burnley Jr., Councilor Davis, Councilor Mbah, Councilor McLaughlin, Councilor Pineda Neufeld, Councilor Sait, Councilor Strezo and Councilor Wilson
In Support of An Act Establishing Protections and Accountability for Transportation Network Companies (TNC) and Delivery Network Companies (DNC) Workers.

Councilor Ewen-Campen gave some history of the unfair misclassification of these workers and said that there are bills at the state house (S.627/H.1158) that would address this matter by preventing price gouging, requiring panic buttons for both driver and passenger, and provide a pathway to unionization, all while maintaining employee status. Councilor Clingan noted that current conditions benefit shareholders, not drivers.

Councilor Ewen-Campen sponsored Paul Weiskel to speak on the item. Mr. Weiskel, an organizer for the Teamsters, spoke of his experiences working for a company that had no union vs. one that did. He explained that worker misclassification allows some labor laws to be avoided. He said that the affected drivers don't have control of their days and that the history of change in industry standards is lessening goods jobs. If drivers can organize, they can build these positions into good jobs that would allow them to support their families.

- RESULT:** PLACED ON FILE
- 7.15. Mayor's Communication (ID # [24-0674](#)) Conveying an update on the development of a water bill ratepayer assistance program.
- Director Vidalis gave an update of the program and some background of what precipitated this situation. The rate increases discussed tonight resulted from Massachusetts Water Resource Authority (MWRA) costs and the city's updating of the water and sewer infrastructure. A Request for Proposals (RFP) was put out and the consulting firm Raftelis was awarded the contract to develop a program. Raftelis Vice President Dave Fox gave a presentation and said that a standard customer assistance program would not be right for Somerville. He gave an overview of the program which includes evaluating the situation, getting feedback and input, determining what programs are available today, and designing and implementing a program. The common issue was the rise in water/sewer bills over time, which impacted property owners and some tenants. The study showed that there is little to no awareness of available programs to help. Mr. Fox spoke about different billing cycles and stressed that communication is critical in multiple modes. He compared what the city asked for vs. what the research determined and the resulting 4 recommendations: 1) make equitable rate structure changes;

2) diversify revenue sources; 3) formulate new policies and practices; 4) enhance communication. Various methods were mentioned as ways to ensure that all bill payers are billed equitably. Mr. Fox also spoke about potential new revenue streams, e.g., fire protection fees, separate stormwater fees, and miscellaneous fee adjustments, potential policy changes including monthly billing, partial payments, grants for water efficiency investments, and a formal written communications plan. The goal is to go live with a program by January 1, 2025. The City Council will be given updates on progress.

Councilor Wilson commented that there could be a shift of burden if rates were charged by type and he asked if the city is trying to get more from ratepayers. Mr. Fox responded that the question was not in the scope of the consulting contract. Councilor Wilson asked if the revenue received from the back water/sewer charges aligned with expectations and Director Vidalis said that staff is still finalizing the numbers. Councilor Strezo commented that she has been hearing from constituents that some of them will be responsible for water usage in their new leases. Director Vidalis said that part of the communication effort is to let tenants know what can and can't be done, but there is no definitive timeline for the communication. Mr. Fox explained that if a property is sub metered, the tenant can be billed for water usage. Councilor Strezo asked if inclusionary units were included in the study and Mr. Fox replied that they are aware that some of that group pay their own water bills and meetings are being scheduled with inclusionary residents to get their input.

Councilor Burnley asked for an explanation of stormwater fees and Mr. Fox stated that he is not involved in that, but fees are usually fixed and based on the square footage of impervious area. Director Vidalis said that the city is in the early stages of looking into this as it reduces sewage fees ensuring more equity. Councilor Burnley asked about the fire protection fee and Mr. Fox replied that locations where fire suppression systems exist will be examined. Councilor Burnley inquired if billing systems will be compatible with other city systems, how long it would take to switch over and how much it would cost. Mr. Fox stated that an upgrade is not needed, but that categorizing needs to be corrected and that it could be doable in the next 6 months. He went on to say that there are funds that the city could apply to property owners, at no cost to the property owners, to retrofit fixtures to lessen consumption. Director Vidalis told the members that most of the changes are administrative changes.

Councilor Clingan inquired about partial payments and Mr. Fox explained that, currently, ratepayers are able to pay bills over time, with interest, and he wants to make that known. Councilor Pineda Neufeld noted that the information on the department's website about submetering is only in English and Director Vidalis commented that staff is aware of that and was planning to update the site. President Ewen-Campen noted that much of the issue is water meter replacements and Mr. Fox again stated that this was outside the scope of the contract.

10.1. Resolution
(ID # [24-0682](#))

By Councilor Sait, Councilor Ewen-Campen, Councilor Wilson, Councilor Burnley Jr., Councilor Clingan, Councilor Davis, Councilor Mbah, Councilor McLaughlin, Councilor Pineda Neufeld and Councilor Strezo
On actions to promote students and community health and resilience in the era of climate change.

Councilor Sait commented that it is our duty to mitigate the impacts of climate change and noted that the city has no plan as to how it would reduce carbon emissions in schools. This resolution calls for 3 actions to be taken

by city:

1. convene an interdisciplinary team to conduct a comprehensive study of all Somerville municipal buildings used by Somerville Public Schools,
2. adopt appropriate measures and practices to assess, monitor, and maintain the healthfulness of each school's physical environment, and
3. report annually to the City Council any updates on measures and practices taken.

Councilor Sait sponsored Courtney Koslow to address the Council. Ms. Koslow said that when the new Winter Hill school is built, it will serve as an inspiration and learning tool. Other schools in the city are having mechanical failures and being repaired without thought to energy reduction the harm being done to the climate. Ms. Koslow said that Somerville has set a goal to reach net zero carbon emissions by 2050 and she pointed out that two thirds of the city's carbon emissions come from its schools. If the schools are addressed, the city goal would be more achievable, yet there is no concrete capital plan for the schools.

Councilor Sait sponsored Kay Mammo who spoke on behalf of the Somerville Educators Union and said that the union endorses this resolution.
