Subject: Public Hearing about Pjs Mortocars - 161 Broadway East Somerville

Hello John,

Hope you have a great thanksgiving weekend.

I was surprised to receive a letter from the city today regarding the request from Pjs Motorcars in East Somerville to be allowed to park more cars on the sidewalk. This is a company that I been constantly complaining about their lack of care for the city by constantly violate laws.

I have had contacted 311 and sent multiple e-mails to Matthew MacLaughlin about it. In fact I have sent Matt about 2-3 e-mails in the past weeks with the following pictures showing the disrespect from the business with the drivers, pedestrians, general traffic violations.

Im attaching some pictures taken in the past 2 weeks as a proof of it.

I hope the city does not allow them any more parking on the sidewalk and in fact I hope their license to park outside is suspended all together.

Here you can see their cars double parked on the bike lanes and blocking the bus stop.

I have notified the local police before who told me they cant do anything about it, and that I should call 311 which I did a few times but have seen no changes. I did also complained about this business in a neighborhood meeting about a year ago and was told by Matt that the issue was brought up to the city hall but the issue persists.

I have a meeting out of the State scheduled for the date of this hearing, which I will try my best to postpone so I can be at the city hall that day. But if it doesnt happen please consider this e-mail as a form to protest any requests for more spaces for this company outside and a request from a citizen that the city suspends and/or doesnt renew their license to park outside.

Thanks,

Leonardo Neves
