Dear Chief Fallon,

Pursuant to the MOA between the City of Boston and the City of Somerville, the Mayor's Office of Emergency Management (OEM) is pleased to notify you that Urban Areas Security Initiative 2018 funding (CFDA# 97.067) under the Critical Infrastructure and Key Resources (CIKR) Goal Area can support Somerville Police Department in purchasing up to One Hundred Five Thousand Five Hundred Fifty-Five dollars and Fifty-Five cents (\$105,555.55) worth of maritime equipment for the department's marine incident response.

The project must conform to the specifications laid out in the FFY2018 UASI Plan Project Justification U18-2.3 Maritime Equipment. Any equipment not already listed in PJ U18-2.3 requires prior approval from OEM. Equipment requiring permanent installation must conform to the specifications contained within FEMA's Records of Environmental Consideration Report regarding Environmental and Historic Preservation (EHP). The purchase of vehicles or radio equipment also requires additional notification to OEM and EOPSS approval prior to bid advertisement. All equipment must comply with FEMA's Authorized Equipment List. Procurement must comply with Chapter 30B of the Massachusetts General Laws.

Once equipment has been received and invoices have been paid, please submit a reimbursement request which includes all of the following documentation; proof of 30B compliance, purchase orders, invoices, and proof of payment. Final reimbursement request for FFY18 funding must be submitted to OEM by June 30, 2021. Failure to fill out the attached OEM-approved forms completely and accurately along with required documentation could result in refusal to reimburse your agency for incurred costs.
