Message: Hello,

There have been a very big and loud tree cutting event on my street, directly across from my house, all day long today which is still going on... They have blocked off the entire street, I repeat, they have blocked off the entire street as in there is traffic flowing thru all day long.

We have never gotten any notification of this.

How could this ever be? Other than being extremely loud and noisy, this is also not safe, not having access to the street. Not to mention that today is the trash pick up day. Who in their right state of mind is allowing such an invasive event that requires THE ENTIRE STREET TO BE BLOCKED OFF TO ANY TRAFFIC on a trash pick up day. But at any rate, how come the citizens are not notified of this event ? What if there is an emergency right now that would require me to drive away? Please give the residents prior notification when their street is going to be blocked off and when there are giant cranes and the loudest industrial machines in the world will be running on their streets. But at any rate, please don't do it on a trash pick up day.

Thank you.
Gurhan Ozen
