Re items 25-1446 and 25-1445 at City Council earlier this month and the Finance Committee meeting this week:
I would like to state my unequivocal support for rejecting funds that require (or even encourage) anyone to cooperate with ICE activity or ICE projects.

I would also love to see Shot Spotter shut down in Somerville and the microphones removed, if we can. The technology has proven to be less accurate than flipping a coin, and far more costly, even if the grants to establish Shot Spotter were supposedly "free money." Surveillance is never actually free.

Best,

Crystal M. Huff
