Why the City of Somerville?

Somerville offers an environment where innovation, collaboration, and community converge, making it an attractive potential home for TransMedics' new global headquarters and manufacturing facility

- **Strategic Location.** Excellent connectivity to Boston and Cambridge through the MBTA Green Line Extension and proximity to major transportation routes
- Access to Talent and Innovation. Close to leading universities and hospitals, providing access to world-class research, engineering, and medical talent.
- **Vibrant, Growing Community.** A divers and vibrant city that values innovation, sustainability, and inclusive growth, aligned with with TransMedics' mission and culture.
- **Commitment to Shared Prosperity.** TransMedics is ready to contribute to the community through ongoing partnerships supporting education, safety, and overall wellbeing.

We see Somerville as a dynamic environment where innovation, opportunity, and community thrive

Examples of what TransMedics can bring to Somerville

A global life-science leader anchoring growth, innovation, and community impact

- **Strengthening Somerville's Life-Science Vision.** TransMedics' presence would reinforce Somerville's vision of becoming an emerging destination for life-science and healthcare innovation.
- **Job Creation and Economic Growth.** Hundreds of new, high-quality jobs across corporate, manufacturing, and logistics functions–driving meaningful economic activity and local spending
- **Local Business Activation.** Increased demand for restaurants, services, housing, and other local businesses—stimulating Somerville's economy and strengthening its commercial ecosystem.
- **Community Support and Engagement.** Annual contributions to education, fire, and police departments, alongside future partnerships in local schools and workforce development

These benefits represent the foundation of a long-term partnership, built on innovation, shared prosperity, and a deep commitment to the Somerville community

A Committed Corporate Citizen

TransMedics is committed to being a long-term partner to the community that will host our new global headquarters and manufacturing facility, with a strong focus on supporting education, safety, and overall community wellbeing.

If our collaboration with the City of Somerville continues to move forward, we intend to make the annual donations below to actively support and give back to the community

- \$100,000 Somerville Public School District Supporting school programs, classroom resources, and student enrichment initiatives that prepare the next generation of innovators.
- **\$50,000 Somerville Fire Department** Contributing to equipment, training, and resources to strengthen emergency response and community safety.
- **\$50,000 Somerville Police Department** Supporting community policing and public safety programs that protect residents and local businesses.

Together with the City and the Commonwealth, we aim to bring innovation, jobs, and long-term economic growth to the community that will host our new Global Headquarter and Manufacturing Facility

Shaping the Future of Organ Transplantation
