Hello, I used to live in Cambridge, and on the back of the 2-day parking pass, there was a map that showed which streets you could park in and your zone.

I think it would be a great idea to have this in Somerville as well. My friend just got a ticket near my house because he was in the wrong "zone". If there were a small map outlining the zones on the back, similar to the Cambridge parking pass, then it would be a lot easier to tell where you can park.

Best,
Emily
