----------------	-----------------------

198956: That the Administration develop with this Board a strategy to analyze the increasing use of Runway 33L at Logan Airport and document the adverse noise impacts.

Mr. Wright spoke about the city's involvement in deterring runway construction and reported that the city spent \$170,000 in that unsuccessful effort. Mr. Boukili discussed how the Administration can try to control air traffic noise and said that people should be told the truth, i.e., that it is difficult to change the air traffic pattern. Ms. Stewart discussed usage on runway 33L and noted that the city does not have access to all of the data, but is working with Mr. Zamore to obtain it.

Mr. Zamore discussed the cause of the shift in runway traffic, the volume of departures, federal regulations, decibel levels and other cited dealing with similar challenges. He stated that planes will continue to fly over Somerville under the current flight patterns and said that a regional effort is necessary that stresses health issues. He also noted that air traffic is not regulated by the EPA.

Alderman Rossetti's motion *that the Administration update the Committee on Public Health and Public Safety, during the first week of every month, on the progress of gathering data as it relates to Logan Airport Runway 33L and that the city engage Mr. Wig Zamore and communicate with officials from the City of Cambridge and other communities,* was approved.

The committee discussed noise monitors, specifically, how to get and operate them. Alderman Rossetti submitted six statements from constituents, (See attachment "Air Traffic Comments - Combined"). Betsy Boward and Michael Wisner gave testimony on the issue.

RESULT:	KEPT IN COMMITTEE
----------------	--------------------------

199850: That the Administration consider the attached Policy Order recently adopted by Cambridge for air traffic noise pollution, and report back to this Board at its next meeting.
