

ELECTIONS FUNDING REQUEST FOR MACHINERY

The following request for Early and Mail-In Voting machinery is likely to be reimbursed by the State Auditor as an unfunded mandate.

1. A High-Speed Addressing System

a. System Highlights:

- Separates list by City Zip Codes or Precinct if necessary
- Creates templates needed to format and print on the inner/outer envelope
- Generates
- Return address
- Outgoing address
- Inner envelope
- Generates
- Name & Address
- Voter ID
- Precinct Number
- 3of9barcode

b. This machine will cut the processing time in half from the current manual process.

c. Cost \$18,006.91

2. A High-Volume, High-Speed Mail Opener for all types of mail

a. System Highlights:

- Can process trays of various envelope types and sizes without presorting.
- Protects envelope contents from being sliced or damaged
- Sorts mail by size, ex. Post cards vs envelopes
- Time stamps all items.

b. Cost \$19,567.50

Total funding request for both machines is \$37,574.41
