Safeguard Vulnerable Road Users Annual Report
May 17, 2022

The number of vehicles this article applied to:

- In the past 12 months, there have been no requests made for inspections or waivers.
- One DPW vendor asked that the contract scope be amended to remove pricing and scope for deliveries until they had sideguards in place. However, the vendor did not have a time frame for the installation. Procurement and Contracting Services edited the contract's scope to prohibit deliveries until an inspection was conducted.

The total number of inspections performed by inspectors and any subsequent violations of this article:

There have been no requests for inspections.

The number of waivers and exemptions requested, the number granted, and the justification for each waiver or exemption requested or approved:

There have been no requests for waivers or exemptions.

Evaluation of safety performance on equipped vehicles from Somerville Police Department reports of incidents:

There have been no reported crashes involving inspected vehicles.

Any financial costs to the city associated with this article:

There has been no cost to the City associated with this article.
