Re: Memorandum of Understanding for FY23CPA Grant Extension Request

Dear Ms. Cameron,

This memorandum of understanding has been prepared to request a Grant Term extension of Somerville Community Preservation Act (CPA) Grant #240064, amounting to \$250,000, from its current date of May 31, 2026 to a new date of December 31, 2027. The reason for this request is that the final task for which the grant funds were awarded, Construction Administration, is expected to be completed in a timeframe consistent with project construction as outlined in bid documents released by the City in early February.

If you have any questions regarding the request included in this memorandum, please do not hesitate to contact our Greenways Program Senior Manager, Karl Alexander, at karl.alexander@mysticriver.org.

We are delighted the City will be advancing this important project through the construction phase, and we look forward to celebrating its opening to the Somerville community.

Sincerely,

A handwritten signature in blue ink, appearing to read "Patrick Herron". The signature is fluid and cursive, with a large initial "P" and a long horizontal stroke at the end.

Patrick Herron, Executive Director
