

Mr. Jean Alix Simeon is from Ganthier, Haiti..

Phone: [REDACTED]

There he studied accounting and spent 6 years working at the Bank National of Credit (1982 – 1988).

He left his home in Haiti and moved to Massachusetts in May 31st, 1988

His goal was to become an expert computer technician

Jean Alix went to the Computer Learning Center in Somerville, Massachusetts where he completed an intensive program in Computer Operations all while working to gain more experience in the field.

- Unitech Computer Discount Center- Customer Service Representative (05/1990 - 02/1992)
- PCs for Everyone- Computer technician (03/1992-10/1995)
- AEROTEK Data Services Group - Contracted for IBM/TSS (10/1995 – 04/1996)
- I B M/TSS (INTERNATIONAL BUSINESS MACHINE/ TECHNOLOGY SERVICE SOLUTION) Provided customer service representation and desk- site support (04/1996 – 01/1999)
- I B M / End User Services in New England Area (Maine to Upstate NY) (01/1999 – 11/2010)
- Intuit, Desktop Support Specialist (11/2010 – 03/2016)
- He spent some time working at IBM as well as providing End User Services in New England and at Intuit as a Desktop Support Specialist.
- Jean Alix had temporary employment with the US Census Bureau as an Enumerator. Working in the field, Enumerators visit households that haven't responded to the 2020 Census, speaking with residents to collect 2020 census data (07/2020 – 10/2020)

Currently, Jean Alix is The Executive Director of UDH Health Coach, Inc. This is a non-profit organization that provides assistance to visiting Haitian medical and nursing students while they attend a month-long external clinic rotation at the Cambridge Health Alliance.

Along with Dr. Marie Louise Jean-Baptiste, Jean Alix co-hosts and produces a weekly broadcast health talk show, Health Corner (Kwen Sante). The goal is to address prevention and raise public awareness around primary care issues and empower the patients to be able to take better care of themselves.

Jean Alix is also a volunteer at Cambridge Health Alliance. He organizes and assists a Haitian Creole language and culture class with the goal to help health providers who care for Haitian patients to provide culturally appropriate health services.
