Subject: BU class final presentations

All – Thank you so much for engaging in the student group study related to noise and sleep disturbance; I think they learned a lot from the experience, and hopefully they will be able to provide you with some useful information going forward. As a reminder, they will be giving their final presentations next Thursday (4/30) at 2. We would love to have all of you there, and any other guests you would wish to bring. For that class, they will be preparing a 2-3 page summary of the study findings and will be giving a presentation with more in-depth information. If you can make it, that would be wonderful; if not, we can make sure to get you the materials. Let me know if you think you will be there so I can have a head count and can get the appropriate number of parking validation stickers. Thanks...

Jon
