4. Mayor's Request (ID # [26-0372](#)) Requesting approval to accept and expend a \$103,514 grant with no new match required, from Eversource Energy to the Engineering Division for permanent resurfacing and restoration of various streets.

Director Postlewaite shared this is the second year the city has cooperated with Eversource Gas on this program and relayed that when Eversource is doing gas line work that requires permanent trench restoration, which is pavement over gas lines, there is coordination between the city when the street is slated for redesign in the five-year plan. Eversource will allocate funds to the city so that the street can be added to next year's redesign and the city will pave after the trenches are complete, which alleviates the need to re-pave again.

Director Taylor stated the city received this grant which will offset costs and allow for the beginning of a website redesign which was last done over a decade ago. In response to a question from Councilor Wheeler, Director

Taylor stated the website redesign has multiple service tools integrated and over 200,000 documents within and this grant will involve web development staff with a range of skills and abilities. In response to a question from Councilor Scott, Director Taylor shared some departments were able to buy software or create micro-sites that allow for more up to date visuals and interactions. The current site cannot handle certain updates, but the goal is to be able to fold sites in the revamp which will also assist in offsetting costs.

6. Mayor's Request  
(ID # [26-0301](#))

Requesting approval to accept and expend a \$47,580 grant with no new match required, from the Massachusetts Department of Mental Health to the Police Department for overtime and backfill for Crisis Intervention Training certification and recertification.

Director Wisdom stated the goal of this funding is to get seven of the ten new officers and 25 officers whose certifications have expired to complete the 40-hour Crisis Intervention Training. Councilor Wheeler asked what this training focuses on. Director Wisdom said it covers behavioral health crisis calls and scenarios that are designed for real life when officers interact with residents experiencing a crisis. The recertification is in the same themes to keep them up to date on any new tactics and to continue learning. Overtime hours are only used if the training is scheduled during a time when an officer is scheduled off and then must come in. Councilor Scott expressed concerns over the staffing budget in the Police Department and the desire to have a larger conversation but expressed overall support for this grant. Councilor Wheeler asked about the requirement of the grant to enter information into a state database. Director Wisdom said as part of the Jail Diversion Program and the Crisis Intervention Training grant both have reporting required and she can follow up with more information on what exactly is recorded.
