SomerStat Director conveying an update on the Happiness Survey.

SomerStat Director Anna Gartsman spoke on the item and gave a brief presentation of the survey and the latest available data, from the 2023 survey. The survey has been conducted every 2 years since 2011 and some improvements to the survey will be coming in 2025. The survey is sent in several languages to 5,000 randomly selected people. From those surveyed in 2023, 1006 responses were received indicating that, overall, most people are happy but not <u>very</u> happy, according to the 5-point scale. Director Gartsman reported that people are mostly satisfied with

neighborhood beauty, pretty satisfied with the convenience of getting around the city, thrilled with social community events, satisfied with the availability of city information, not very concerned about crime and violence, unhappy about the cost of housing, street/sidewalk maintenance and childcare costs. The data indicated that people are most concerned about bike safety, rats, and being priced out of the city.

10. SUPPLEMENTAL ITEMS

10.1. Resolution (ID # 24-1479)

By Councilor Burnley Jr. and Councilor Ewen-Campen In support of safety and transparency on public transit.

Councilor Ewen-Campen spoke about an October 2 Green Line derailment and the way the MBTA failed to support those who experienced that incident. Councilor Burnley said the MBTA's actions in frequently closing portions of the GLX are unacceptable and he wants to have protocols and safety procedures in place for incidents such as this. Councilor Ewen-Campen sponsored Ms. Margaret Norcross Devin to speak. Ms. Norcross Devin said that the train was moving too fast and that after the accident black smoke was filling the train. After exiting the car, passengers stood on a bridge while the train operator stayed with the train. After reaching an access path, passengers were told to walk straight ahead as shuttle busses would be there. Instead, she opted to walk home and started to feel unwell. She was dismayed that passengers weren't interviewed by MBTA personnel at the scene. She contacted the MBTA and was referred to their Law Department and was told she would be sent a claim form. She was also told she could write a letter to the GM of the MBTA to express her concerns. She was contacted by the media and 3 days later, she was contacted by the Chief Operating Officer of the MBTA. She explained that she isn't looking for compensation - she just wants stated protocols in place to ensure that MBTA personnel obtain information from passengers involved in an incident. Councilor Ewen-Campen requested the MBTA's policy for this type of incident and, as yet, he has not received it.

10.2. Resolution (ID # **24-1480**)

By Councilor Burnley Jr., Councilor Clingan, Councilor Davis, Councilor Ewen-Campen, Councilor Mbah, Councilor McLaughlin, Councilor Pineda Neufeld, Councilor Sait, Councilor Scott, Councilor Strezo and Councilor Wilson

That the Administration explore opportunities to utilize the Massachusetts Bay Transportation Authority (MBTA) Communities Catalyst Fund to spur new housing acquisition or production, particularly in the Winter Hill, Gilman Square, and East Somerville neighborhoods.

AMENDMENT: That the Administration explore opportunities to utilize the Massachusetts Bay Transportation Authority (MBTA) Communities Catalyst Fund to spur new housing acquisition or production, particularly in the Winter Hill, Gilman Square, and East Somerville <u>and Davis Square and Ball Square</u> neighborhoods.

Councilor Burnley spoke about available statewide funding in the amount of \$15 million and he feels that Somerville should be on the cutting edge for securing a portion of those funds to meet the needs of its residents. Councilor McLaughlin noted that the city was bold enough to follow through on the need for more density by passing the triple decker ordinance. Councilor McLaughlin moved to amend to add Davis Square and Ball Square. The motion was approved.

10.7. Order By Councilor Clingan and Councilor Ewen-Campen

That the Director of Inspectional Services appear before this Council to discuss the Massachusetts Bay Transportation Authority (MBTA)'s application to the Mass Architectural Access Board, on behalf of the City of Somerville, to circumvent Americans with Disabilities Act (ADA)

compliance.

(ID # 24-1486)

Councilor Clingan found out about this from a constituent and explained that the MBTA applied for a sidewalk variance and sent copies of the application to the appropriate entities, however, no letter from the city was included with the application and it was unclear if the city had any knowledge of this matter. Director of Engineering Brian Postlewaite spoke on the matter saying that the variance is not news to the city, as it came in over the summer months and has nothing to do with the Gilman Square T station, itself, but rather it has to do with the Medford Street bridge. The location of the variance is immediately adjacent to the abutment of the bridge, which is state owned, therefore it is outside of the jurisdiction of the city, therefore, a letter from the city stating that it does not own that property should suffice in moving the application along. Councilor Clingan disagreed, saying that this has everything to do with the station and he sponsored the Chair of the Commission for Persons with Disabilities, Holly Simione, to speak. Ms. Simione noted that it's important that variances come to the commission for review and input. She commented on the slope of the sidewalk and feels that some city department should be telling any parcel owner working in Somerville's domain when something is not right. Councilor Burnley referenced an attachment to this item and asked Director Postlewaite to comment on an image (figure 6). The Director explained that the drawing is from an earlier design of the project. When the project was cancelled and then re-booted, the design changed, however the variances were retained. The variance in question now, is to exceed the slope by an additional 1%. Councilor Burnley commented that the state often fails the city and Councilor Clingan asked the Director if the situation has a solution to bring it into compliance. Director Postlewaite explained that it would be extraordinarily difficult to make this particular sidewalk compliant although it's not entirely off the table, but it would be challenging.
