Mayor Curtatone told the members that a provision was found in the contract between the City and Waste Management, that consequently allowed the City to notify Waste Management that they would have to vacate the city owned site presently rented by them for \$20,000 per month. Notice was given to Waste Management in October of 2011, with the City giving Waste Management one year to find another transfer station location. There are plans to develop the

area where the present transfer station is located, as part of the Green Line expansion. The amendment before the committee clarifies (in paragraph 3) the responsibilities of the contractor.

Alderman White requested information on the amount of fees paid last year and what will be paid in FY-14 by Waste Management. Alderman White requested that a provision be explored with Waste Management that would provide the City with an advantageous rate if the going rate for tonnage were to fall below the rate agreed to in the amended contract. Alderman Heuston inquired as to whether the additional distance in hauling waste to Saugus would affect existing or future contracts with Russell Disposal and Alderman White requested that the Law Department examine the City's contract with Russell Disposal to determine if they may collect additional fees to truck the city's trash to Saugus.
