## CITY OF SOMERVILLE, MASSACHUSETTS COMMUNITY PRESERVATION COMMITTEE

### COMMUNITY PRESERVATION COMMITTEE CHANGE OF SCOPE RECOMMENDATION FOR *FY22 AWARD FOR JUNCTION PARK*

#### **PROJECT DESCRIPTION**

In FY22, the Community Preservation Committee recommended, and the City Council approved, a grant of \$100,000 for design of Junction Park. Carried out with broad public engagement to meet goals stated in the FY22 project application, the design process has been completed and 100% bid documents prepared. While the CPC's recommendation had specified that the CPA funds would be used for design and engineering services, the CPA funds were not used at this stage because there was an opportunity to supplement the project with federal CDBG funds which needed to be used on a shorter timeline. The Division of Parks and Urban Forestry requested that the FY22 CPA grant be applied instead toward the construction of Junction Park.

#### **RECOMMENDATION**

On April 26, 2023 by a vote of 7-0 the Community Preservation Committee recommended changing the scope of the FY22 funding award for Junction Park Design to support construction of Junction Park.
