The Committee discussed the need for coordination when the DPW engages in snow removal operations.

190759 - That the Chief of Police advise this Board of the overall training goals for all management personnel and patrol officers for the balance of the fiscal year.:

Chief Pasquarello provided an overview of the Police Department's training budget, collective bargaining and bidding process, noting that continual training is necessary for police officers to perform their jobs effectively. There is little money remaining in his budget for additional training during this fiscal year. If training is required for new recruits, the money will have to come from other department line items.
