Description	Custom Prompt 1
	Date/time
	Date/time
<p>There is absolutely no doubt that the aircraft noise in Central Somerville has significantly worsened by comparison to only a few months ago. We moved to the area in September 2013, and the situation deteriorated rapidly around June or July 2014. Since then, we have three or four days per week like today, where it seems that air traffic from/to Logan is pretty much exclusively routed over Somerville (we are talking about one-minute or two-minute intervals). As is stands, the situation has become unacceptable; this is affecting the health of hundreds of thousands of residents.</p>	Date/time

Dear Alderman: There appears to be an uptick in the air traffic from Logan over Davis Square over the last many months, inc. in the early morning and late evening. For example, from 6-8 am on 8/24/14 (a Sunday), approx 40 planes flew at low altitude over Davis. From 8:00pm and 10:00pm on Sept. 3, 2014, approx 20 passed over at very low altitude. From 5:30-10:30 pm on 9/22/14, planes flew over at 1 per minute - a 5-hour long constant drone that disrupted my (young) family's sleep. Tonight, from 6pm to now (8pm), it is the same. I have filed complaints with Logan on each of the above dates, but it happens other times as well. I have lived in Somerville since 2010, and accept that noise is part of urban living. But this has become a disruptive and constant nuisance that cannot be escaped. I hope you continue to press this issue; the summer 2013 arrangement made with Logan is not working or is being disregarded. Many thanks.	Date/time

Constituent is calling because the airplane noise has been going on every minute since 6am.	Date/time
Noise complaint filed with Massport for excessive noise which woke me up. Just wanted to let city know I had filed a complaint.	Date/time
Ms. Giguel reports excessive noise from overhead flights that began at approximately 6:30 a.m. and have continued every "three minutes" until the time of this call. She asks that the city bring this matter to the attention of the appropriate authorities in hopes of having this ongoing problem resolved. Ms. Gihuel is also filing a complaint of the Massport Website.	Date/time
Ms. Gauthstein reports excessive noise from overhead flights beginning at approximately 6:15 a.m. and continuing every "two-to-three minutes" up to the time of this call. She asks that the city bring this matter to the attention of the appropriate authorities in hopes it will alleviate the problem on noise pollution.	Date/time

Ms. Thompson reports excessive noise from overhead flights beginning at approximately 6:00 a.m. and continuing every two-to-three minutes up to the time of this call. She asks that the city bring this matter to the appropriate authorities in hopes of alleviating the problem.	Date/time

Constituent is calling because there has been plane noises every 3 hrs.	Date/time
Mr. Chisholm reports excessive airplane noise from 8:00 a.m. every five minutes until the time of this call. He asks that the city bring this matter to the attention of the appropriate authorities in hopes of alleviating the problem. Mr. Chisholm also advises he placed a notice of complaint on the Massport site.	Date/time
Ms. Sherwood reports excessive, loud airplane noise commencing at 6:00 a.m. and continuing every two minutes up to the time of this call. She asks that the city bring this matter to the attention of the appropriate authorities in an effort to alleviate the problem. Ms. Sherwood left a similar message on the Massport Noise Complaint line.	Date/time

Ms. Norman reports that excessive noise as a result of numerous airplanes flying over her neighborhood is unnerving. She states the noise levels from 9:00 p.m. on Monday 08/18-to-12:45 a.m. on 08/19/14, and beginning again at 6:30 a.m. on 08/19/14 was unnerving. She asks that the city bring this matter to the attention of the appropriate authorities along with a strong recommendation that remedial action be taken to reduce noise levels.	Date/time

VERY LOUD, frequent airplanes starting buzzing our house at 6 am. I noted them from 6-6:40 am, at 6:44 am, at 7:30 am, every few minutes (about 70 airplanes) from 2:50 in the afternoon until about 6:08 pm, and again around 9:43 and 9:45 pm. I am sure they were roaring overhead at other times of the day, but I was out of the house.	Date/time
Very loud airplanes roared overhead starting at 5:10 am, waking me up from sleep. I noted them at 5:10 am, 5:18, 5:21, several more through 5:44, 5:52, 5:54, 5:58, 6:01, 6:03, 6:08, 6:25, and 6:28 am. The frequency, the loudness, and the time of day are all unacceptable.	Date/time
A very loud plane roared overhead at almost midnight, waking me up from sleep. This followed planes that woke me up at 5:10 am that same morning.	Date/time
Very loud, low-flying planes woke me up from sleep at 5:23 AM and continued intermittently until about 9:45 am.	Date/time
Very loud, low-flying planes woke me up from sleep at 6:07 am and continued intermittently until almost 9 am. This happened the day before, too.	Date/time
Very loud, low-flying airplanes woke me up from sleep, starting at 6:22 am and continuing until 8 am.	Date/time

The airplane noise on this day was outrageous. Planes started at 5:22 am, waking me up from sleep. I noted 32 planes from 5:22 to 10:34 am. They started again in the late afternoon. I noted planes every 1-2 minutes from about 4-5 pm, about 45 planes from 5:24 pm to 7:10 pm, planes every 1-2 minutes through 7:45 pm, and 22 more from 8:18 pm to 9:40 pm. That's probably approaching 150 planes over the course of the day, and every single one would be it's own complaint if I had the time to fill out this form that many times.	Date/time
Another outrageous day of airplane noise. Planes started at 8 am, about every 5 minutes. I noted them every few minutes from 9:44 am to 11:32 am (39 planes), at which point I left the house. When I returned at 1 pm, the planes were still roaring every few minutes. I noted 31 planes from about 1 pm to about 4:15 pm. They started again at night with about 8 planes roaring overhead from 10:03 to 11:04 pm.	Date/time
Very loud, low-flying, and frequent airplanes all evening, ruining dinnertime and any chance of relaxation in the evening, then keeping us awake at night. They started at 6 pm. I noted 64 planes from 6 pm to 8:24 pm and 21 more from 9:11 to 11:26 pm.	Date/time
A VERY loud, VERY low airplane roared over our house at 12:30 at night, waking us up from sleep.	Date/time
After being woken up at 12:30 in the morning, I was again woken up at 6 am, with planes continuing through the morning until about 8:15. I left the house only to find them still roaring overhead in the late afternoon (I noted 16 planes from about 2 pm to 3:15 pm). There were more loud planes in the evening, including at 10:55 and 10:57 pm, preventing me from falling asleep.	Date/time
The planes started roaring over our house at 7:34 am. I noted about 39 planes between then and 9:11 am. When I returned home in the evening, they were still roaring, so loudly I could hear them through the music in my earphones. I counted 16 planes from 5:05 to 6:45 pm.	Date/time
More very loud early-morning planes--I noted 38 of them from 6:07 am to 7:40 am. Outrageous. The fourth day in a row of loud, frequent airplanes. Mercifully, we left for vacation that day, only to return to more planes roaring overhead the day after our return. This is nowhere near acceptable.	Date/time
A very loud airplane roaring overhead at about 12:15 at night, waking me up from sleep.	Date/time
We were out for the day and returned home at 6 pm to find the planes roaring overhead. We noted them at a rate of about 25 per hour from 6 to about 9 pm, then at a lower but still frequent rate from then until bedtime around 10:30 pm.	Date/time
Three loud airplanes roared over our house from 12:05 to 12:10 am, waking us up from sleep. These midnight sleep interruptions from planes are becoming more common. At this hour, the planes are at their loudest, the long, low, very loud drag of what sounds like a very large aircraft. They are a major sleep interruption.	Date/time
When does Massport think we sleep? Their planes are waking me up at midnight, then again at about 5 am. They are flying overhead while I'm trying to fall asleep in the late evening. This is not a livable situation. So far today from 5:08 am to 6:30 am, I have counted 12 loud airplanes. How many more are they sending over our house today? Somerville, what are you doing about this?	Date/time

<p>Department to Contact: General Question/Comment (311) Question/Comment: We are getting inundated with airplane noise. This has been going on and getting worse for months now. This afternoon, as an example, we have a constant stream of planes taking off over this area (near Tufts/Davis), they appear to be low-flying judging by the incredible amount of noise. This has been going on for hours - started around 2, it is now 6 and they are still coming over here every couple of minutes. I have complained about this to Massport numerous times. But what I really want to know is exactly what the City of Somerville is doing on our behalf. Please respond with details about what if anything is being done to advocate for some relief here. Plus, why is this so bad now? Have they changed the flight paths or runway configurations to our disadvantage?</p>	Date/time

There appears to be a lot of airplane traffic tonight from planes that seem to be taking off from Logan. Here is a copy of the email I sent to the FAA this evening: There have been a number of aircraft this evening flying overhead that are incredibly loud and disturbing the peace. At 7:37PM, 7:41PM, 7:57PM and 8:01PM and 8:05PM to name a few specific occurrences in accordance with my address.	Date/time

VERY LOUD airplanes dragged over our house at 2:03 AM and 5:11 AM this morning, waking me up both times from much-needed sleep. It is TOTALLY unacceptable that Massport is doing this to our neighborhood. Please STOP allowing low-flying airplanes on this route. During sleeping hours, even just one very loud plane is incredibly disruptive. The 5 AM planes are becoming routine.	Date/time
VERY LOUD low-flying airplanes dragging over our house at 5 in the morning, waking me up. PLEASE find a way to get Massport to STOP allowing the low-flying over our house!! The 5 AM planes are becoming regular and are a big disruption to our quality of life.	Date/time

LOUD, LOW airplanes every few (sometimes every 3-5) minutes all through the early afternoon. Constant, repetitive, low-flying airplane noise for hours on end is becoming a regular occurrence in Somerville. Combined with early morning and late-night disruptions, Massport's flight patterns are like a disease in our neighborhood.	Date/time

Very low-flying, VERY loud aircraft over my home in Somerville at 6:15 am, 6:32 am, and 6:39 am., waking me up out of sleep.	Date/time
This was one of the most outrageous days of airplane noise I have recorded this year. Over 132 airplanes BUZZING overhead from 11 am to almost 9 pm. I work from home and found it difficult to have a phone conversation with the windows open, and I could even hear the planes quite clearly with the windows closed.	Date/time
VERY low, VERY loud airplanes started flying early in the morning, continuing until late at night. I counted over 66 planes and recorded them at 6:17 am, 6:21, 6:25, 6:35, 6:37, 7:00, 7:19, 7:22, 7:25, 7:29, 7:31, 7:40, 7:51, 8:02, 8:06, 8:17, 8:42, 9:05, 9:07, 9:13, 9:40, 9:49, 10:00, 10:03, 10:10, (more, not recorded), 12:01 pm, 12:10, (more, not recorded, out for lunch, back at 1:45), 1:46, 1:48, 1:49, 1:51, 1:55, 1:59, 2:02, 2:04, 2:05, 2:12, 2:15, 2:19, 2:21, 2:25, 2:27, 2:35, 2:39, 2:46, 2:51, 2:53, 2:56, 2:59, 3:05, 3:14, 3:18, 3:19, 3:25, 3:26, 3:28, 3:30, 3:38, 3:42, 4:12, 4:14, 4:15, 4:20, 4:21, 4:27, 4:30, (more, not recorded), 4:50, 4:52, 4:54, 4:58, 4:59, 5:01, (left the house, back home at 9:15 pm), 9:20, 9:21, 9:23, 9:26, 9:28, 9:31, 9:33, 9:36, 9:38, 9:39, 9:46, 9:47, 9:50, 10:04, 10:06, 10:07, 10:13, 10:16 (helicopter)	Date/time

Here is the complaint I registered with Massport: Over the course of the past year, I have become increasingly aware of the frequency with which my neighborhood (Ball Square in Somerville) seems to be in the direct flight path of Logan. As I write, there is a constant procession of airplanes overhead. When I bought my home two years ago, I do not recall it being anywhere near this bad. Now it happens all the time--late at night (last night as I was trying to fall asleep at 11:30pm), this morning as I was trying to enjoy a pleasant Saturday morning walk at 7am, and on many other occasions, morning, day, and night. My neighbors have also complained about their growing exasperation with the noise. We would all be very grateful if you could institute new policies and protocols to re-route flight traffic so that it does not have such a significant impact on this densely packed Somerville neighborhood. Thank you.	Date/time
the airplanes are ripping through the sky again today, so low it feels like our house might start rattling. they are so loud that it's difficult to have an outdoor conversation. Somerville, can you please provide insight into what is happening at the political level to address this? What can we as residents do to help fight this? It is outrageous and a complete violation of our peaceful home life.	Date/time

Just now ~10:40pm on Saturday May 24 a plane flew overhead my apartment at 63 Conwell Avenue that was quite noisy (all windows were closed)! If you could work with the people at Logan to not let planes fly so low over residential areas, especially at nighttime, it would be much appreciated.	Date/time

The airplanes started at 5 am this morning. That was the first one. Then there were more at 6:30 am. Now it is the afternoon and they are ROARING overhead, one every couple of minutes. No peace. No quiet. Disruptive to any outdoor conversation. Heard indoors, even with the window closed. It outrages me. Please provide information about what Somerville is doing to address this.	Date/time

The planes started their air-raiding noises over us in the afternoon and it is now continuing through dinner. All i wanted for mother's day was an afternoon of gardening in our backyard, but it's impossible to relax and enjoy it with planes ROARING overhead all afternoon and through dinner (and who knows when it will stop). Would Somerville please provide an update on what is happening with the effort to address this? I'd appreciate knowing one way or the other if you are doing anything about this. It is getting worse and I don't know that I can continue to live here with these loud, obnoxious, intrusive, stressful, and entirely unpredictable bouts of incredibly low aircraft over our home. It was not like this when we bought our home and I don't intend to live with it now.	Date/time
The planes are STILL roaring overhead. They started this afternoon and it's now 11:20 pm and they are still booming, as low and loud as ever. Here comes another one, not 3 minutes after the last. 11:23 pm. It's OUTRAGEOUS. Please do something about this.	Date/time

Constant overhead planes, I can see them in a line past Teele Sq. Ridiculous	Date/time
I am writing to make a complaint about the amount of air traffic over my home in Somerville this evening. I have been listening to an average of one large plane every 25 seconds over my house for the last hour. I also listened to large planes over my house until after 11pm last night. The noise is very loud, disruptive, and stress inducing. I understand Massport recently decided to redirect more air traffic over Somerville. This amount of air traffic is disruptive to our community and damaging to individuals' well-being. I have also sent an email to Massport.	Date/time

Called to complain about the loud jet flying noise from last night. Thought it sounded like a plane about to crash. Explained that it was the Jets flying over Fenway as part of the World Series opening celebration.	Date/time
A lot of planes this afternoon every 15 to 30 seconds. Very low and very loud. Last night planes were flying until 11:45PM on 10/23.	Date/time
She is a voice over artist so this affects her recording.	Date/time
Came home on Friday evening after a long week to hear the planes roaring overhead, starting from about 6 pm onward. No peace and quiet. Totally disruptive.	Date/time
Woke up at 1 am (middle of the night) to the sound of planes and helicopters overhead	Date/time
Friday was in Davis Sq very Low and Sat It was about every 15 seconds. Very loud. From The early morning till about 2pm.	Date/time
Planes roaring overhead all day on Sunday. SUNDAY. A day of rest? Not so much. They started at about 7 am and went all the way through about 11:15 pm at night. At times, they were back-to-back. As soon as one engine faded, the next one was coming.	Date/time
Cannot hear people on phone and cannot hear audio on my computer when planes take off. Each time lasts about 2 minutes.	Date/time
Roaring airplanes overhead, starting around 10 pm then intermittently, continuing now through 11:30 pm.	Date/time
It's been getting worse over the last few months, but today, Friday, Oct. 18, has been one of the worst days for frequency and noise. Cannot hear my television, for example.	Date/time

<p>I was awoken this morning at 5:30 AM by airplane noise. At first the planes were roaring overhead about every 5 minutes, then by 6 AM it was about every 2 minutes. Aside from the obvious intrusion of the noise and the outrageous hour at which it began, it's SATURDAY. After working a long week and caring for two small children, I need some rest on a weekend morning. This noise was not present when we purchased our home years ago. I have already written with a general complaint. I will keep writing until this intrusion on our peace and quiet stops or we move to get away from it. If this keeps up, don't bother revitalizing Assembly Square, or improving the schools, or rebuilding our parks. I can't live here with this kind of noise.</p>	Date/time
<p>This started before 5:30 this morning, and is endless, back-to-back takeoffs. The noise has been awful this fall. I have complained to Logan several times, but often don't bother because nothing happens. It will probably go on all day. Do I have any options?</p>	Date/time
<p>Hello 311, I'm writing in response to recent airplane noise at my house on Ossipee Road in Somerville. The air traffic has been heavy very early in the morning, starting at 6 am on weekends and weekdays, and was ongoing this evening. It is not distant air traffic-- it's a loud roar, as if our house were being dive-bombed. It's disruptive, irritating, and needs to be stopped. It wakes me up from much needed sleep at 6 in the morning on a Sunday. It's distracting when we try to have a conversation in the house. It makes it hard to hear the television. I know this has been an ongoing issue in Somerville. I appreciate anything the city can do to address it. Regards, Betsy Bogard 18 Ossipee Road</p>	Date/time

<p>Over this past week I've been awoken by aircraft noise between the hours of 2AM and 6AM or later. The noise is so loud sometimes that it shakes the house. Often the noise is constant... one aircraft after the next. Has a flight path changed? Will it resolve back to normal soon? This is very disruptive to sleep. I've reported this to Massport and I was instructed to also report it here. Thank you.</p>	Date/time

Follow up to noise complaint registered 8/5; Planes from BOS Logan continue to fly LOW AND LOUD over our neighborhood on select days; this evening it has been every 2-3 minutes since I arrived home; Beyond maintaining our sanity, concerned about home property values - is this change permanent?	Date/time
CONSTITUENT SAID THE PLANES SEEM TO PASS OVER HER HOME MORE FREQUENTLY. SHE IS CONCERNED HOW LOW THEY ARE FLYING OVER SOMERVILLE.	Date/time
Very loud airplane noise every 2-5 minutes for the past half hour.	Date/time
	Date/time
The airplane traffic noise has picked up substantially over the past month. Before this, the noise was intermittent--tolerable. But now it is going back to the level of frequency and noise before the City of Somerville filed a lawsuit. Maybe they're thinking they're out of the woods now so they can go back to the way it was and no one will notice.	Date/time
Could hear plane while on phone with caller, she stated it has been like this for 45min today.	Date/time

Hi, I am noticing a dramatic increase in plane traffic over our house this evening. Approximately every 60 seconds, a large commercial jet is passing over our neighborhood. This is new plane traffic to the area. It's very noisy and disruptive. Is this permanent? Many thanks! Lindsay	Date/time
The Mayor should band together with other residents of cities affected by all this plane traffic tonight. One can't even enjoy a pleasant summer evening out on the porch. All you here is the noise! It is not acceptable in our community. V Lane 19 Barton Street Somerville, MA 02144	Date/time

Called to state that airplane noise was extremely loud. First one passed at 5:13am, 5:17am,, 5:30am and every 15 minutes since then for first hour.	Date/time
Yesterday (Sunday) morning, I think they started around 3 PM. For awhile, I made note of the times. It was then about every 1-10 minutes (mostly every 2-3 minutes) until 4:40 when I had to quit making notes, but I heard them around 6 PM also. This morning (Monday) they started again at 5:57 AM for about every 2-25 minutes to 8:01 which is the last I made note of. They fly low and are very noisy.	Date/time

Our neighborhood is not normally flight path from BOS Logan, but for the past few days the plane traffic overhead has been incessant; On 8/5, I have been home since 7pm - there has been roughly one plane per minute flying directly overhead for past 90 minutes; hopefully just a temporary change in departure flight paths?	Date/time
she states since 6am this morning , low flying planes fly over every 2mins - 10 mins apart , they are very low and loud, when it this gonna stop , it was like this all day long .	Date/time
Planes have been flying overhead since mid day yesterday. They seem to be nonstop. I feel like I'm living next to the airport. I've lived here for 30+ years and cannot recall it ever being this bad.	Date/time
Near constant jet departures over west Somerville (Davis Square) continue over two days. Between 6AM-10AM and 4PM-7PM, planes overhead every 1-5minutes. At other times, between 5-15 minutes. This was the case Sunday 8/4 and Monday 8/5.	Date/time
Planes have been flying over non stop starting Sunday morning all day and night starting again on Monday morning at 5:00 and again all day and night non stop what is going on with this it has never been this bad non stop every 5 min	Date/time
Aircraft noise has been persistent today for the entire day (i noticed the first at 6am), with a new plane overhead approximately every 2-3 minutes. 3 planes have crossed in the time it has taken me to fill out this form.	Date/time
From 7 PM to 10:30 PM tonight I've noticed loud aircraft flying low overhead at about 5-10 minute intervals. This is the first time I've noticed such constant aircraft noise at night.	Date/time

An A320 flew directly over my house at 9:42 pm at a very low altitude. This is unusual. I checked the Airport Monitor via www4.passur.com/bos.html and noted that United Airlines Flight 468, an Airbus A-320, overflew Somerville at 2,800 feet at 21:42:36.
