- 4.4. Resolution (ID # [24-0902](#)) By Councilor Clingan, Councilor Wilson, Councilor Strezo, Councilor Pineda Neufeld, Councilor Burnley Jr. and Councilor Mbah
That the Administration hold a community meeting within the next 30 days to address the impacts of the missing United States Postal Service mail, and the overall lack of mail delivery in various parts of Somerville.
- Councilor Clingan commented that the recent lack of mail delivery in the city is due to a United States Postal Service labor shortage and he feels that it's time for the USPS to consider increasing its employees' wages in MA to alleviate the problem. Locally, some residents have been without mail delivery for weeks and it's now a quality-of-life issue affecting the delivery of medications, Registry of Motor Vehicles (RMV) notices, jury duty notices, etc. Residents are aware that specific pieces of mail are missing, and the Postal Service is reporting that it is caught up, and at the same time saying that they're investigating. Councilor Strezo would like the Administration to work with the City Council on a communication plan for residents.
- RESULT:** APPROVED AND SENT FOR DISCUSSION
FOLLOWUP: Housing and Community Development Committee
-

- 4.5. Order (ID # [24-0909](#)) By Councilor Wilson and Councilor McLaughlin
That the Executive Director of the Office of Strategic Planning and Community Development update this Council on the possibility of receiving additional federal financing for transit-oriented development through the Transportation Infrastructure Finance and Innovation Act (TIFIA 49) initiative and the potential eligibility of projects in Somerville.

AMENDMENT: That the Executive Director of the Office of Strategic Planning and Community Development update this Council on the possibility of receiving additional federal financing for transit-oriented development through the Transportation Infrastructure Finance and Innovation Act (TIFIA 49) initiative, IRS 63-20 corporation financing and Railroad Rehabilitation & Improvement Financing (RRIF) and the potential eligibility of projects in Somerville.

Councilor Wilson spoke an Internal Revenue Service (IRS) determination, known as 63-20, that opens the possibilities for a public private mechanism to create affordable housing. He also spoke about a federal financing tool for transit-oriented development, (TIFIA 49), that might be helpful with projects in Somerville that have stalled due to financing issues. Councilor Wilson moved to amend this item by including IRS 63-20 and Railroad Rehabilitation and Improvement Financing (RRIF). Councilor McLaughlin noted that this is yet another opportunity to build housing and that he would like to see the pace of building increased.

RESULT: APPROVED AS AMENDED AND SENT FOR DISCUSSION

- 8.3. Officer's Communication (ID # [24-0913](#)) Director of Water and Sewer conveying the FY 2025 Water & Sewer Rate proposal.

Director of Water and Sewer (W&S) Demetrios Vidalis presented the proposed FY 2025 water and sewer rates, saying that it is what the city needs and that efforts are being made to try to avoid higher rates in the future. The Water and Sewer Enterprise Funds were created to take some of the burden off taxpayers. He explained the charges imposed by the Massachusetts Water Resource Authority (MWRA) and spoke about the city's aging infrastructure, as well as a number of projects, e.g., lead service line replacement. The Poplar Steet pumping station will provide immediate flood mitigation for the Union Square area once it comes line. The Director said that the budget for W&S is comprised of MWRA costs, capital investments and debt service, personnel, and maintenance, with 85% of the budget (\$45.2 million) being fixed costs. He said that without the proposed increase, there would be a \$3 million deficit. The proposed rate works out to an average 6% increase which amounts to an additional \$60 per year on average and he said that he understands this may be a hardship for some. The department will be taking steps to increase its communication outreach. Director Vidalis reported that the meter replacement program is 90%

complete and that 6% of ratepayers saw significant increases due to the catchup readings. 170 bills have been adjusted, representing a decrease of \$480,000 to ratepayers.

Councilor Scott asked about staffing in W&S and the Director said there are no Heavy Machine Equipment Operator (HMEO) staff in the department. Councilor Scott asked if the ratepayer assistance program has been implemented yet and the Director replied that it has not. Councilor Burnley questioned the sequencing, saying it seems to imply that rates have to be raised before they can be restructured, and he asked if after approving the proposed rates the department would implement another set of structures in January. Director Vidalis said that the hope is to come before the Council before the end of this year to present a new structure to be implemented in January.

Councilor Mbah expressed concern about people on fixed incomes and the Director said that there are steps that can be taken by residents to conserve water. Councilor McLaughlin noted that this 6% increase equates to \$3 million, and he pointed out that the FY 2025 city budget has increased by \$20 million. He went on to say that the city received approximately \$78 million in American Rescue Plan Act (ARPA) funds, and \$1 million has not been spent yet. Councilor Scott asked for a detailed accounting of the additional revenue this proposal would bring in and he wants to know what happened to the \$1 million for ratepayer assistance. Councilor Clingan asked for the rate changes for the past 4 years. Councilor Strezo commented that she is already hearing from tenants that increases are being put into their leases and she asked when landlords and tenants will be apprised of their rights and responsibilities.
