FORM A - DESIGN & CONSTRUCTION**

Project Title:	FY23 Water Improvements		
Project Address:	Central Broadway and Various Other Streets		
Department:	IAM - Engineering		
Project Mgr.:	Jonathan Smith	Email:	jsmith@somervillema.gov
New Project or Modification:	New Project		

Department Priority:

Rank your project(s) in order of priority from your point of view. If you propose four projects, rank them 1, 2, 3, 4, with 1 being the highest, and so forth.

Project Description/Scope of Work:
Design and construction of yearly rehabilitation to the water distribution systems, including but not limited to: water mains, hydrants, and shut-off valves. Design services will prioritize deficiencies found in the water system based on consequence and likelihood of failure. Design services will include engineering services during construction. Improvements include rehabilitation of existing pipes by clean and lining, installation of additional shut-off valves, and installation of new pipe as necessary.

Justification:
Water Distribution Improvement Plan study identified many deficiencies in the existing water system. The Plan identified a long-term need to repair and update the existing water system that requires annual design and rehabilitation projects. Rehabilitating the existing water system is required to meet the demands for firefighting and community use.

Relationship to Other Projects:
Project selection based on September 2020 Kleinfelder plan titled "Water Distribution Improvement Plan"
