### **Introduction to Plant and Wildlife Monitoring for Conservation with Earthwise Aware**

*Saturday, September 9, 2-3:30pm*

Join Claire and [Earthwise Aware](#) (EwA) citizen scientists and learn how to observe and record the plants, insects, and animals of the Somerville Growing Center. With these observation events and through the EwA photo documentation using the iNaturalist platform, we contribute to biodiversity science while enjoying the outdoors together in this beautiful little garden. Also learn about EwA's arthropod (insect and spider) and phenology studies at the Growing Center.

### **Open Hours for the Arts: Poetry**

Saturday, September 9, 4-5pm

Come to the Center to join poet Denise Provost-and maybe others- in a garden setting. Nurture your creative muse taking time to listen and write, or perhaps share poems of your own or others that inspire you. Be part of this experimental series of open hours with a special focus.

### **Taste the Molecular Rainbow: What Color and Flavor Tell Us About Chemistry**

Sunday, September 10, 4-5:30pm

Why do all alliums have that strong garlicky smell? How do I know if the dried herbs you've had in my cabinet for five years are still good? In this class you will begin to practice using your senses to teach you about the chemical constituents in your foods and medicine. We will discuss the primary atoms that make up plant molecules, and some common forms that they take. You will get to see, smell, and taste different preparations of the same herbs to learn the

flavors and mouthfeel of specific molecules, and to learn which preparations extract which constituents. Bring your favorite mug and a pen and come join me where experiential and scientific knowledge meet! With herbalist Mo Katz-Christy as part of our Community Herb Project.

### **Community Read Aloud and Growing Together**

Monday, September 11, 4-5pm

*Community Read Aloud* in the garden continues with guest reader Yumi Izuyama. All ages welcome. Paula, [paula@paulajordan@yahoo.com](mailto:paula@paulajordan@yahoo.com)

### **A Gathering of Fairies: Celebrating Nature Spirits**

Saturday, September 16, 2:00 - 5:00pm. (Rain date September 30).

Come learn about nature spirits from around the world—and our imaginations! Everyone is invited to come dressed up as their favorite magical being. Celebratory activities in the garden for fairies and their friends include storytelling, building a fairy house and creating a fairy wand. Donations are encouraged to support the Growing Center and Gathering of Fairies.

### **Regular opportunities for active engagement**

#### **Open Garden Hours**

The Growing Center strives to be open to the public and accessible to everyone in the community. To do this, our volunteers host multiple Open Hours sessions each week, which change across the seasons but typically include at minimum: Thursday, 4:30 pm - 6:30 pm; Saturday, 10:00 am - 12:00 pm; Sunday, 12:00 pm - 2:00 pm. These are weather dependent, so plan accordingly. Please check our [calendar](#) and social media for updates and cancellations.

#### **Insect and Plant Monitoring with Earthwise Aware**

Tuesdays, 3-4:30pm, weather permitting

Once a week volunteers, with [Earthwise Aware](#) (EwA), monitor the biodiversity (insects, amphibians, birds and plants) and phenology (flora and fauna) of their five study sites depending on the weather and time of day. On Tuesday afternoons, volunteers gather at the Growing Center and welcome guests to join them to learn about and participate in this ongoing citizen science Entomo-Phenology Fieldwork project.
